A 3D perspective drawing of a rectangular plate. The plate is shown from an angle, revealing its top surface and the edges of its thickness. The top surface is a light gray color. The edges are defined by black lines. On the front-left vertical edge, there is a small black circle. On the front-right vertical edge, there is a small black circle. The top edge of the plate is drawn with two parallel black lines, giving it a three-dimensional appearance.

Total thickness: 1.66mm
